I am a full stack web developer with a passion for making game apps in unconventional ways. With a background rooted in songwriting and audio engineering, I thrive on providing creative web solutions through determination and dedication.

Work Experience

General Assembly March 2018 - Present
Web Development Immersive Engineering Fellow
New York, NY

- Created 4 projects during a 12-week intensive course learning Javascript, building full stack web applications using React, Node, Express and PostgreSQL
- Collaborated with other developers to create a full-CRUD web application that utilized data from Google's Places API
- Collaborated with UX students on a "hackathon" project
- Learned strategies for efficient problem solving through self-study and seeking advice as needed

Layla Girl Ltd. June 2012 - March 2018
E-Commerce Specialist
Staten Island, NY

- Created product listings for eBay, Amazon, Walmart and company websites
- Uploaded and maintained inventory of product listings using Magento, HTML, and CSV files
- Monitor product feed to ensure successful transmissions
- Troubleshoot any resulting feed issues specific to each E-Commerce marketplace
- Reviewed and resolved any issues involving cataloging and product descriptions
- Copy editing for product descriptions

Ming Yuan After School September 2009 - June 2013
Instructor
Brooklyn, NY

- Managed groups of 15 to 20 fifth grade students to complete daily homework assignments and larger projects providing assistance as needed and feedback on completed work
- Promoted confidence on a personal level for each student to solve problems accurately and efficiently with increasing independence
- Planned and provided additional assignments to be completed after daily homework assignments
- Maintained discipline of students while providing an encouraging and positive learning environment
