Full-stack web developer with a passion for making game applications in unconventional ways. Recent successful graduate of the Web Development Immersive program at General Assembly with up-to-date knowledge of JavaScript, Node, Express, React and Databases using PostgreSQL. First-hand experience in data-structuring and database feed errors while working with an E-retailer selling on various E-commerce platforms including Amazon, Ebay, and more. Detail-oriented and collaborative, with the ability and drive to deliver projects against strict timelines and standards.

Experience

General Assembly
March 2018 - June 2018
Web Development Immersive
New York, NY
Engineering Fellow
- During a 12-week intensive course, learned JavaScript, jQuery, version control through Git using Bash CLI and building full-stack web applications using React, Node, Express, PostgreSQL and Ruby On Rails
- Conceived, planned and executed four projects with self-determined daily schedules to meet hard deadlines, three of which were web apps requiring full-stack development
- Collaborated with other developers to create a full-CRUD web application that utilized data from Google's Places API
- Collaborated with UX students on a three-hour "hackathon" project. Planned, prepared and delivered an investment pitch for a web app that provided a platform for General Assembly alumni to stay connected with each other and directly collaborate with one another on projects

Layla Girl Ltd.
June 2012 - March 2018
E-Commerce Specialist
Staten Island, NY
- Created product listings for eBay, Amazon, Walmart and company websites
- Uploaded and maintained inventory of product listings using Magento, HTML, and CSV files
- Monitor product feed to ensure successful transmissions
- Troubleshoot any resulting feed issues specific to each E-Commerce marketplace
- Reviewed and resolved any issues involving cataloging and product descriptions
- Copy editing for product descriptions

Ming Yuan After School
September 2009 - June 2013
Instructor
Brooklyn, NY
- Managed groups of 15 to 20 fifth grade students to complete daily homework assignments and larger projects providing assistance as needed and feedback on completed work
- Promoted confidence on a personal level for each student to solve problems accurately and efficiently with increasing independence
- Planned and provided additional assignments to be completed after daily homework assignments
- Maintained discipline of students while providing an encouraging and positive learning environment
